## PRESS RELEASE

### **Angel Foundation Announces New President & CEO**

ST. PAUL (August 22, 2018)—Angel Foundation’s Board of Directors is pleased to announce the appointment of Dave Becker as the organization’s new President and CEO. Dave has spent more than 18 years working in the nonprofit sector, most recently having served as vice president of the central territory for the American Diabetes Association where he was promoted from vice president of the Midwest region and Executive Director for MN, ND and WI.

Dave joined Angel Foundation’s staff on August 20, 2018 and is excited to begin his new role, “I am elated about the opportunity to lead Angel Foundation. The Foundation provides amazing resources and services to those when they need them most. I am humbled to have the opportunity to serve in this manner and to bring the essential work of the Foundation to the communities we serve.”

“We are excited to have Dave’s proven leadership experience to help grow and guide the organization into the future,” said Margie Sborov, Angel Foundation Founder and Board Member. “He brings extensive experience in strategic planning, operations, development and community relations as well as a passion for our mission to help families facing cancer to live in the now and celebrate everyday moments of joy.”

#### **About Angel Foundation:**

Angel Foundation was founded in 2001 by Margie Sborov, a patient navigator who saw firsthand the issues that cancer patients face. Margie felt compelled to start a non-profit organization that would meet the needs of adults with cancer and their families. When cancer strikes, Angel Foundation offers two programs – Emergency Financial Assistance and Facing Cancer Together. The Emergency Financial Assistance program helps adults in active treatment for cancer, living or treated in the seven-county metro area with non-medical, basic living expenses such as food, housing, utilities and fuel. The Facing Cancer Together program provides free education and support programs to adults with cancer and their families. Through these services, Angel Foundation is able to help cancer patients reduce their stress and live in the now so they’re able to celebrate the everyday moments of joy in their life. Since its founding, Angel Foundation has provided more than \$8 million in emergency financial assistance and 25,000 services to individuals in the community.
